Guide to the Facilities Services Records, 1888-2003

Title

Facilities Services Records (RG 193)

Dates

1888-2003 (inclusive)
1930-1990 (bulk)

Creator

Oregon State University. Facilities Services.

Summary

The Facilities Services Records document the physical campus of Oregon State University in Corvallis as well as OSU facilities throughout the state of Oregon beginning with construction of the first building on the current campus in 1888. The records consist predominantly of architectural drawings and files for the design, construction, and modification to structures.

Quantity

324 cubic feet, including 8650 sheets and 271 photographs (131 boxes, including 13 oversize boxes, and 172 map folders)

Historical Note

Facilities Services at Oregon State University is responsible for planning, construction, operation, and maintenance of campus facilities and providing a safe environment for faculty, staff, students, and visitors.

Until the early 1990s, Facilities Services was known as the Physical Plant. Until the 1940s, it was common for the head of the physical plant to also be a faculty member in the School of Engineering.

Gordon V. Skelton, a Professor of Highway Engineering, was Superintendent of Surveys, Maps, Roads and Walks, and Fire Protection from 1932 until 1940. From the early 1900s until 1932, he functioned in this role as Chair of the Department of Civil Engineering.

Mark Clyde Phillips, an Associate Professor of Mechanical Engineering, served as Superintendent of Heating from 1910 to 1933 and 1940-1947; he was Superintendent of the Physical Plant from 1933 to 1940. Louis N. Traver served as General Superintendent of the Physical Plant from 1940 to 1947, when Richard A. Adams was appointed to the post. Adams held the position until his retirement at the end of 1971. Subsequent Directors were Everett H. Lillig (1971-1981) and Howard A. Wells, Jr. (1981-1988); and Kathleen Mulligan (1988-1999).

Prior to 1932, there were individual superintendents for heating, buildings, campus and greenhouses, light and power, and plumbing and no general superintendent or head of the Physical Plant.

Arrangement

The records consist of 22 series: I. Architectural Drawings and Plans, 1901-1999; II. Building Project Files, 1938-2002; III. Building Specifications and Reports, 1909-2003; IV. Capital Construction Project files, 1962-1997; V. Facilities Planning and Use Committee Records, 1981-1985; VI. General Construction Files, 1989-1997; VII. Minor Building Modifications Files, 1985-1993; VIII. General Subject Numbered Files, 1968-1991; IX. Committee Records, 1966-2003; X. Correspondence, 1888-2003; XI. Land Ownership and Property, 1940-1951; XII. Policies and Procedures, 1986-1994; XIII. Publications, 1989-2001; XIV. Space Use, 1960-1969; XV. Staff Meeting Minutes, 1992-2001; XVI. Time Records, 1913-1939; XVII. Renderings (Drawings) of Campus Buildings, 1949-1975; XVIII. Book Plans, 1960-1993; XIX. Lighting (Interior) Study, circa early-mid 1980s; XX. Campus, Farm, and Property Maps, 1899-1900; XXI. Aerial Photographs, 1952-1979; and XXII. Photographs, 1963.

Content Description

The Facilities Services Records provide in-depth documentation of the physical campus of Oregon State University in Corvallis and OSU facilities throughout the state of Oregon. The records include architectural drawings and plans for structures used in teaching, research, and administration; athletic events; and student housing and dining.

Documentation of the design and construction of major buildings, major renovations, and minor remodeling projects are available in several series and include building specifications, contracts, project manuals, and agreements with architects and engineers. Information about major campus systems, such as electrical, plumbing, fire protection, and heating, are also included. For new construction and major renovations, records of proposals for the Percent for Art public art program are available.

The records include documentation of campus planning; capital expenditures and funding; policies and procedures; land acquisition and ownership; space use; and planning, transportation projects, and other development for the City of Corvallis.

In addition to architectural drawings and plans for individual structures and campus-wide systems, the records include book plans; campus, farm, and property maps; and aerial photographs. The records include plans by numerous architects and designers including John V. Bennes; the Olmsted Brothers; Charles H. Burgraff; Lee Thomas; Burns, Bear, McNeil, Schneider, Bloodworth, and Hawes; Hewlett and Jamison; and Jeppsen and Miller.

The bulk of the records pertain to facilities on the OSU campus in Corvallis. However, materials pertaining to facilities at other locations are also available, including Camp Adair and Adair Village; United States Department of Agriculture buildings at the H.J. Andrews Experimental Forest; and research vessels, docks, and buildings at the the Hatfield Marine Science Center in Newport.

The Gordon V. Skelton correspondence in Series X includes materials pertaining to Skelton's role as chair of the Civil Engineering Department, including curriculum, graduate programs, and interactions with the Dean of Engineering and other campus administrators.

Preferred Citation

Facilities Services Records (RG 193), Oregon State University Archives, Corvallis, Oregon.

Acquisition Information

Transferred from Facilities Services (and the Physical Plant) in numerous accessions from the 1970s through 2007.

Future Additions

Additions to the collection are expected.

Related Material

The [Memorabilia Collection](#) includes brochures and general information about Facilities Services, information about individual structures, and materials pertaining to campus planning. More detailed information about the construction of some major buildings is available in the records of the corresponding office or department; for example, information about construction and remodeling of the Valley Library (and its predecessors, the Kerr Library and Kidder Hall) are available in the [Library Records \(RG 009\)](#).

Capital Construction Funding Records for 1952-1989 as well as other materials pertaining to buildings and facilities are part of the Business Affairs Records (RG 017).

Additional correspondence of Gordon V. Skelton is available in the Civil Engineering Department Records (RG 030).

Detailed Description of the Collection

Series I. Architectural Drawings and Plans, 1901-1999 1928-1991 (196 cubic feet (7418 sheets), 151 map folders and 5 oversize boxes)

Series I consists of architectural drawings and plans for construction of or major modifications to most structures on the Corvallis campus and for many at other OSU locations throughout the state. They include facilities used for teaching, research, administration, athletic events, and student housing and dining. This series also include plans for buildings constructed by the United States Department of Agriculture (USDA); projects pertaining to campus-wide systems or multiple buildings; structures at Camp Adair and Adair Village; research vessels; and buildings for which plans were prepared but were not constructed. The lists of building plans typically use the current name of OSU buildings.

Individual Structures, 1901-1999 (140 cubic feet (5531 sheets), 109 map folders and 5 oversize boxes) [These plans are for construction of or major modifications to more than a hundred individual structures on the Corvallis campus and at other OSU locations in Oregon. They include facilities used for teaching, research, administration, and athletic events. A plan-level list with building name, plan title, date, architect, and number of sheets is available [online](#).]

Student Housing, 1928-1996 (25 cubic feet (1103 sheets), 18 map folders and 2 oversize boxes) [The Student Housing plans are for student housing and dining structures. They include plans for Arnold Dining Hall and Bloss and Finley Residence Halls; Buxton, Cauthorn, Hawley, and Poling Halls; Azalea House; College Inn; Heckart and Reed Lodges; the Housing Service Building; Married Student Housing; Sackett, Snell, and Weatherford Halls; and the West Hall Dormitory and Cafeteria. Plans for several structures that were not built are also included. A plan-level list with building name, plan title, date, architect, and number of sheets is available [online](#).]

USDA Buildings, 1967-1984 (2 cubic feet (273 sheets), 1 oversize box and 3 map folders) [The USDA Buildings plans are for structures on the Oregon State University Corvallis campus or other properties that were constructed by the United States Department of Agriculture (USDA) for its research units. They include plans for the Forestry Sciences Laboratory, the National Forage Seed Production Research Center, and the Ornamental Plans Research Facility on the Corvallis campus as well as plans for the administrative site at the H.J. Andrews Experimental Forest near Blue River, Oregon, in the central Cascade Range. A list of the USDA Buildings plans is available [online](#).]

Campus Wide, 1948-1993 (25 cubic feet (344 sheets), 2 oversize boxes and 13 map folders) [Plans that document projects that pertain to campus-wide systems or multiple buildings are included in this subseries. These include plans for electrical systems, fire alarm systems, handicapped accessibility and safety deficiency corrections, parking lots, roofs, sidewalks and streets, subsurface investigations, underground fuel tank removal, utility tunnels, and water systems. A list of the Campus Wide plans is available [online](#). Plans pertaining to the utility tunnels are described by plan title; all other plans are described at the folder-level with the range of dates of the contents of each folder.]

Camp Adair (Adair Village), 1946-1979 (1 cubic foot (75 sheets), 1 oversize box and 4 map folders) [The Camp Adair (Adair Village) plans consist of plans for structures used by Oregon State College from the end of World War II (1946) through the late 1970s as well as maps of the camp and village.]

- * Adair Air Force Station, 1958-1969 (35 sheets)
- Box**
- 107 Adair Village Boundary Survey, 1949 (2 sheets)
- * Library Storage, 1973-1979 (3 sheets)
- 107 Library Storage, undated (4 sheets)
- * Maps of Lands and Rights of Way, 1946-1949 (10 sheets)
- * Veterans Housing Project for Corvallis, Oregon, 1946 (15 sheets)

- * Veterans Temporary Housing, 1946 (6 sheets)
- Research Vessels, 1959-1963 (2 cubic feet (35 sheets), 2 map folders) [These plans are for oceanographic research vessels built or modified by Oregon State University.]
- Not Built, 1930-1975 (1 cubic foot (57 sheets), 2 oversize boxes and 2 map folders) [These plans are for buildings and structures that were not constructed. They include a proposed agricultural engineering building (1953), an agricultural sciences and continuing education complex (1969), a biological science building (1930), family living center (1962), Oceanography III building (1975), Navy ROTC building (1945), and a research laboratory building (1945). In some cases, they represent proposed buildings for which approval or funding was not received. Plans for student housing structures that were not built are in the Student Housing subseries. A list of these Not Built plans is available [online](#); the list provides building name, plan title, date, architect, and number of sheets.]

Series II. Building Project Files, 1938-2002 1974-1998 (84.3 cubic feet including 138 photographs, 87 boxes and 1 map folder)

The building project files document the construction, renovation, and maintenance of various OSU buildings and include building specifications, contracts, correspondence, project manuals, progress reports, contract insurance reports, agreements with architects and engineers, contract proposals, and statements of qualifications. Structural repair and maintenance projects are also described in this series and cover insulation installation, re-roofing, and HVAC system management. Architectural drawings and plans have been separated to Series I. Records documenting the selection and installation of artwork funded by the Percent for Art public art program are also included in this series. The series includes photographs (indicated below). This series includes records pertaining to capital construction projects.

Series III. Building Specifications and Reports, 1909-2003 (12 cubic feet, including 8 photographs, 15 boxes and 1 map folder)

Series III consists of building specifications for construction and renovation of various OSU buildings and structures and reports regarding campus planning, proposed structures, campus traffic flow, building accessibility for the disabled, and planning reports by the City of Corvallis. Building specifications for the construction of numerous campus buildings in the 1950s through 1970s are included, such as the residence halls, Cordley Hall, Dixon Recreation Center, Kerr Library, Nash Hall, Peavy Hall, the Radiation Center, Rogers Hall, Snell Hall, the Veterinary Medicine teaching hospital, Weniger Hall, and Wilkinson Hall. The series also includes specifications for several structures completed in the 1920s and 1940s, such the Dairy, Horse, and Sheep Barns; Covell Hall, Gill Coliseum, and Sackett Hall. This series includes the 1909 campus plan by the Olmsted Brothers landscape architects.

Box**Series IV. Capital Construction Project Files, 1962-1997 (8.5 cubic feet including 6 photographs, 11 boxes)**

Series IV documents building construction projects budgeted for \$100,000 or more. The Capital Construction Project Files contain bid documentation, correspondence, memoranda, photographs, as well as meeting minutes from the Oregon State System of Higher Education (OSSHE) Building Committee. The bulk of the records in this series pertain to the construction of Burt, Nash, and Peavy Halls and the Bloss and Arnold residence halls. This series includes the 5000 files for several projects in the mid-1990s: dock construction at the Hatfield Marine Science Center; renovations at McNary and Milam Halls; construction of the Property Administration Building; reconstruction of the Industrial Building (Cascade Hall) after the 1992 fire; renovations at Withycombe Hall for the University Theater; and ADA upgrades at Langton Hall and the Women's Building. Additional materials pertaining to these and other capital construction projects are available in Series II, III, and VI.
